

The Cape Coop Farm Soap Making Classes

Private Soap Making Demo (cold process) – Watch the fascinating process of soap making! When learning a new skill, having someone take you through all the steps is the easiest path to mastery! I will demonstrate how *cold process soap* is made from start to finish. We will go over how to properly handle & store lye, testing for trace, adding fragrances & colors and how to follow recipes. This is a demonstration only class where you can observe the process. You will take home a copy of a beginner **soap recipe, written instructions & resources for soap making suppliers** so you can make your own soap at home. You will also take home **one bar of finished soap** (your choice of any in stock variety!). Private soap making demos are about 1 hour long. **\$25 (bring a friend for just \$12 more!)**

Private Hands On Soap Making (cold process) – If you are ready to dive in and try your hand at soap making, this is the class for you! I will be there to walk you through each step from choosing your scent & design, handling lye, testing for trace and molding up your soap. You will get to customize the soap with whatever scent & colors you like. I have a large selection of essential oils, fragrance oils, colorants and tons of additives including Sea clay, Kaolin clay, Bentonite clay, Rose Clay, Rose Petal Powder, sea salts, silk, activated charcoal, loofah, and dried botanics like rose petals, calendula,

chamomile and lavender. You are only limited by your imagination! Included in this class are a copy of the **recipe we made, written instructions & resources for soap making suppliers**. You will also take home the custom **3 pound log of soap** you made in class (which can be cut into 8-10 bars of soap depending on thickness – retail value of over \$50!) **AND** the **3 pound reusable soap mold with silicone liner** so you can make more soap at home! Hands on soap making class is about 1 ½ hours long and as you will be handling lye in this class, so you must be at least 18 years old. **\$70 (bring a friend for just \$40 more!)**

Fine Print:

- *max class size of 4 people
- *each full price participant can bring one friend at discounted price
- *payments accepted via Paypal and are required 7 days prior to class
- *payments are non-refundable, but you can move it to another date
- *classes are held at our Falmouth farm, near the Barnstable Fairgrounds
- *soap requires at least 4 weeks to cure (but 6 weeks is better), so plan accordingly if you are making soap for a special event!
- *glycerin “melt & pour” soap classes also available by request
